

Plan A Health clinics provide services to all patients regardless of insurance status or ability to pay. Patients without insurance are assessed on the sliding scale below, however a generous donation from the Ripple Foundation has covered the cost of all patient copays and fees through 2024.

For your reference, the sliding scale implemented for covered fees is below.

1. Find your family size on the left side of the chart (the number of family members who live in your house including you). For each additional family member, add \$393.33 monthly.
2. Read across that line/row to find your monthly income
3. Look down that column to the bottom row to see how much you owe. As a reminder this cost is covered by the Ripple Foundation.
